### **Updated Coronavirus Guidance** - updated guidance from Public Health Cornwall:

Public Health Cornwall is asking parents, carers, teachers and school staff to follow the following guidance.

- Book a PCR test if you are a household or close contact of a confirmed COVID-19 case
- Household contacts of a case who attend an educational setting to take a daily rapid LFD test for 7 days

This additional testing recommendation applies to children in secondary schools and additionally primary schools if parents/carers feel comfortable in doing so.

The daily testing recommendation for Cornwall is not mandatory but designed to identify children and young people who develop COVID-19 a few days after their sibling or other household member and therefore reduce the risk of COVID-19 spreading in schools.

If they do not have COVID-19 symptoms and are testing negative they can continue to attend their setting. If they test positive on an LFD test or develop new symptoms, they should self-isolate and take a PCR test.

We also request that all parents, carers and older siblings of school aged children test twice weekly, using a lateral flow test, in line with the continued government guidance.
